

Springs Adventist Academy

2018-2019 Home and School Involvement Form

The Home and School Association coordinates efforts that join the school with the home. Everyone gets a chance to be involved in the smooth running of Springs Adventist Academy. In that effort, we would like to encourage you to sign up as a volunteer on a regular basis or for a specific event. Participating in these Home and School events can go towards your required service hours. Sometimes you will simply see something that needs to be done and do it. That will also count. Furthermore, if you purchase something for the school, you may convert your purchase into hours. All service hours will be accrued on the honor system.

Please select at least three options that fit into your busy schedule. If you don't find an option that works for you, or if your talents/abilities match an activity not mentioned, check "other" and describe your request.

Number your selections from 1-3, with 1 being your highest interest. We suggest families select different options each year to diversify your volunteer experience.
